

# Ameer Hamza Aslam

Software Engineering Student

Software Engineering student with hands-on experience in OOP, databases, data structures, and AI, complemented by professional experience as an AI Analyst at Turing evaluating AI-generated outputs to improve model quality. Driven by genuine curiosity for software development and emerging technologies, with a track record of building real projects and delivering in professional environments. Additionally experienced in videography and business content marketing. Seeking an internship to apply my technical foundation and grow within a forward-thinking software organization.
